

Electrician

Are you proud to be an Electrician? Do you want to work with a fast-growing organization where you can show your skills and work on your own initiative? Do you want to be part of The Green Change to make a better impact on the planet?

If you are a qualified Electrician and you have answered YES to all the questions above, this job offer is for you.

We are looking for a proactive Electrician who is not afraid to work on his own and who feels proud of the quality of the work they perform. Installing EV Charging Solutions around Ireland for an expanding company in the renewable energy sector.

A trusting and reliable person who will be interacting with the client on a daily basis.

The right fit must have attention to detail and experience in Domestic and Commercial Electrical work.

The candidate has to be responsible, organised, and willing to learn. The company will provide any training required.

We are looking for a flexible and adaptable candidate with full driving licence and Testing and Verification Certification to process the installations around Ireland.

Full time position from Monday to Friday - 40 hours/week.

REQUIREMENTS:

- Proven work experience in Renewable Energies, Electrical or Automotive field.
- Knowledge of MS Office
- Highly motivated and self-dependent.
- Willingness to travel around Ireland to install the chargers.
- Excellent communication skills.

QUALIFICATIONS:

- Electrician Certificate
- City & Guilds – Electrical Testing & Verification Certificate.
- Valid Safe Pass and Manual Handling
- Full Clean driving license.

About the company:

Randridge Darkin Charging Solutions utilizes their extensive project experience in electrical engineering to offer the newest EV charging technology and Solution to both our commercial and domestic clients nationwide.

We offer new opportunities and a chance to upskill, now is the time to use your knowledge and skills as an Electrician.
